Contact us today and quote **SYSTEM2019 so we can discuss the best solution for your company.**

Panasonic KX-NS700 is a Smart Hybrid VoIP Phone System designed specifically for small or medium-sized businesses who don't have a big budget. This compact unified communications solution is a cost-effective legacy and IP small system for companies with up to 250 users at a single site. It can be flexibly configured and expanded, making it the ideal alternative to cloud-based solutions based on its ability to manage big future growth. Designed to deliver simplified and improved communications, lower costs and increased productivity, this advanced system can easily adapt to meet the changing needs of companies across a broad range of industries.

EXCEPTIONAL • VOICE • EVERYWHERE

Making the decision to buy Hosted could not be more straightforward, especially with a free phone and 5000 minutes included per month.

One clear monthly payment that covers all your communication requirements. There are no large upfront payments, just a simple per user licencing cost and a monthly rental charge for connectivity.

There are just three licence types to choose from:

Licence Costs

Monthly charge

Entry	£6.00
Essential*	£9.25
Everything*	£14.00

Licence Costs SIP

Per channel / Phone Line £9.25

*** Includes free calls to Local/National/03/ UK Mobile including FM1/FM3/FM4/FM5/FM6. Subject to a fair usage policy of 5000 minutes. The option of a Mitel 6863i handset, Yealink T21 handset or a Cisco SPA122 will be supplied FOC if a 3 year contract is taken out.**
